Vlad Herasymovych

Fullstack Web Developer

Experienced full-stack developer with a proven track record of crafting innovative solutions to intricate challenges. Proficient in both front-end and back-end technologies, I specialize in developing high-performing applications that exceed user expectations. Adaptable and thrive in fast-paced environments, adept at quickly mastering new technologies and delivering exceptional results.

Work Experience

Tutore Poland, Fullstack Web Developer

Contract Full-time | Lodz, Poland
January 2022 - Present

- Implemented custom live notifications using Socket.io.
- Developed and integrated an automated system for email and SMS dispatching.
- Designed and developed client-side websites with a focus on user-friendly interfaces, performance optimization, and SEO strategies. Utilized modern web technologies to create dynamic and engaging experiences compatible with various devices and browsers.
- Created user-friendly data management tools to boost productivity for non-IT personnel.

Agora Tutoring, Software Engineer

Contract Part-time | Edmonton, Canada
June 2024 - September 2025

- Migrated backend from Apollo 2 to Apollo 4, updating all packages to the latest versions.
- Implemented CI/CD workflows by setting up test environments, integrating GitHub Actions for continuous deployment, and writing Jest tests to validate backend functionality.
- Designed and implemented a payment portal system.
- Refactored existing authentication functionality by integrating Firebase Authentication.
